

Application scenario

Enterprise

Institution

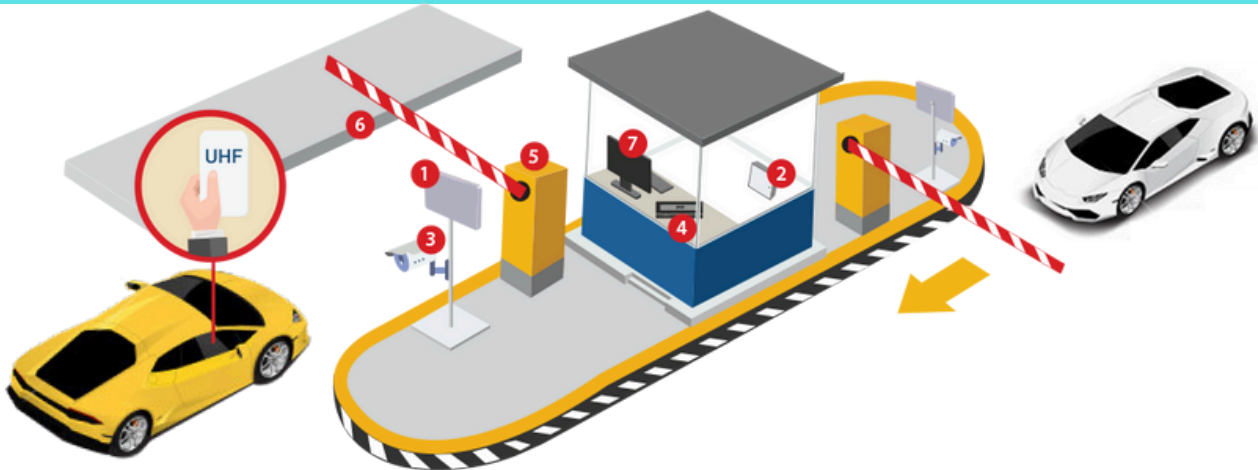

Supermarket

Apartment

Hotel

Specification

Frequency	865~868MHz (EU)
RF output power	20dbm-26dbm(Adjustable)
Built-in antenna	9dBi
Reading distance	0-10 meters
Standard interface	RS232, Wiegand, relay ,TCP/IP
Power supply	12 V, 2A
Indicator light	Strip light, red & green
Material	ABS+die cast aluminum
IP protection level	IP65

Dimensions

- Support RSSI to identify tag signal distance
- ISupport password/mask mode, high security
- Relays can supply power and trigger external devices to work
- Applications: vehicle management, asset anti-theft, weighing scales, animal management, personnel management, etc.
